APPENDIX - SPECIALIZED DELIVERABLES

Detailed Deliverable Information

The below table is provided as a supplement to the Specialized Deliverables product information found in Section I, Syndicated Deliverables.

Data Feed – Desktop URL Traffic	
Description	Includes individual-level URL traffic for the Comscore active Desktop panelists. This includes both Windows and Mac machines where applicable. Includes the host, directory and page of the visited site and host, directory and page of the referring site where available. Data suppressed for panelists identifiable as under the age of 18. Each file will include data for a single day.
Data Source(s)	Comscore Desktop Panel
Metrics	Set out in Appendix B – Data Schema
Geography	United States
Data Period	January 1, 2022 – December 31, 2024
Delivery Frequency	One-time delivery
Delivery Mode	FTP
Delivery Format	Flat File
Delivery Timing	One-time delivery within 20 business days from full execution of this Service Order or data availability, whichever comes later

Data Feed – Mobile Android Clickstream	
Description	Comscore will report on mobile data from its active Android Smart Phone panel and includes app and browser activity. App reporting is limited to foreground information and does not include in-app activity. For browser collection, Comscore reports on the URL host, directory & page information for non-secure websites. For secure websites, Comscore reports on URL host information. Comscore's Android panel is 18+. Each file will include data for a single calendar day.
Data Source(s)	Comscore Mobile Panel
Metrics	Set out in Appendix B – Data Schema
Geography	United States
Data Period	January 1, 2022 – December 31, 2024
Delivery Frequency	One-time delivery
Delivery Mode	FTP
Delivery Format	Flat File
Delivery Timing	One-time delivery within 20 business days from full execution of this Service Order or data availability, whichever comes later

Data Feed – Mobile iOS Clickstream	
Description	Comscore will report on mobile data from its active iOS panel which includes both iPhones and iPads as well as app and browser activity.

	Comscore is able to report detailed browser and in-app activity for a subset of websites and apps. Comscore's iOS panel is 18+. Each file will contain data for a single calendar day.data for a single calendar day.
Data Source(s)	Comscore Mobile Panel
Metrics	Set out in Appendix B – Data Schema
Geography	United States
Data Period	January 1, 2022 – December 31, 2024
Delivery Frequency	One-time delivery
Delivery Mode	FTP
Delivery Format	Flat File
Delivery Timing	One-time delivery within 20 business days from full execution of this Service Order or data availability, whichever comes later

Data Feed – Desktop Demographics	
Description	Comscore will provide machine and person-level demographic files for all relevant countries, all of which are aggregated monthly. Demographics are provided for panelists that qualify for Comscore's monthly in-tab desktop sample. Demographic availability varies by platform and geography and is subject to change over time. Data for panelists identifiable as under the age of 18 will be excluded. Demographic availability varies by platform and geography.
Data Source(s)	Comscore Desktop Panel
Metrics	Set out in Appendix B – Data Schema
Geography	United States
Data Period	January 1, 2022 – December 31, 2024
Delivery Frequency	One-time delivery
Delivery Mode	FTP
Delivery Format	Flat File
Delivery Timing	One-time delivery within 20 business days from full execution of this Service Order or data availability, whichever comes later

Data Feed – Mobile Demographics	
Description	Comscore will provide mobile demographic files for all relevant countries, all of which are aggregated monthly. Demographics are provided for panelists that qualify for Comscore's monthly in-tab mobile sample. Demographic availability varies by platform and geography. Comscore's mobile panels are 18+.
Data Source(s)	Comscore Mobile Panel
Metrics	Set out in Appendix B – Data Schema
Geography	United States
Data Period	January 1, 2022 – December 31, 2024

Delivery Frequency	One-time delivery
Delivery Mode	FTP
Delivery Format	Flat File
Delivery Timing	One-time delivery within 20 business days from full execution of this Service Order or data availability, whichever comes later

Data Feed – Desktop DaySession

Description	Digital Data Feed – Desktop Day Session: Session-level traffic files for Comscore's PC panelists that consist of session-level aggregated pages and duration at the Comscore's Client Focus Dictionary ("CFD") entity. Data for panelists identifiable as under the age of 18 will be excluded.
Data Source(s)	Comscore Desktop Panel
Metrics	Set out in Appendix B – Data Schema
Geography	United States
Data Period	January 1, 2022 – December 31, 2024
Delivery Mode	FTP
Delivery Format	Flat File
Delivery Timing	One-time delivery within 20 business days from full execution of this Service Order or data availability, whichever comes later

Data Feed – Mobile DaySession

Description	Digital Data Feed – Mobile Day Session: Session-level traffic files for Comscore's mobile panelists that consist of session-level aggregated pages and duration at Comscore's Client Focus Dictionary ("CFD") entity level for mobile usage. Includes platform breaks. Data for panelists identifiable as under the age of 18 will be excluded.
Data Source(s)	Comscore Mobile Panel
Metrics	Set out in Appendix B – Data Schema
Geography	United States
Data Period	January 1, 2022 – December 31, 2024
Delivery Mode	FTP
Delivery Format	Flat File
Delivery Frequency and Timing	One-time delivery within 20 business days from full execution of this Service Order or data availability, whichever comes later

Data Feed – Lookups

Description	Lookups that correspond to the various data feeds. This includes: Browser Type Lookup (mobile only) Traffic Category map (for Comscore's Client Focused Dictionary [CFD]) Each will contain data for a single calendar month
Data Source(s)	Comscore Desktop & Mobile Panels
Metrics	Set out in Appendix B – Data Schema
Geography	United States
Data Period	January 1, 2022 – December 31, 2024
Delivery Mode	FTP
Delivery Format	Flat File
Delivery Frequency and Timing	One-time delivery within 20 business days from full execution of this Service Order or data availability, whichever comes later

APPENDIX B - DATA SCHEMA

Desktop URL Traffic

File Name	Field	Data Type	Description
Comscore_url_traffic	machine_id	bigint	Unique identifier for each machine
Comscore_url_traffic	url_idc	varchar	Unique event identifier
Comscore_url_traffic	person_id	bigint	Unique identifier for each person
Comscore_url_traffic	ss2k	bigint	Seconds Since 2000
Comscore_url_traffic	time_id	int	Comscore date identifier (Unique identifier for days)
Comscore_url_traffic	domain_name	varchar	Domain name portion of url (i.e. amazon.com)
Comscore_url_traffic	url_host	varchar	URL host portion of url (i.e. www.amazon.com)
Comscore_url_traffic	url_dir	varchar	URL directory portion of url (i.e. /gp/product/)
Comscore_url_traffic	url_page	varchar	URL page portion of url (i.e. index.asp)
Comscore_url_traffic	url_refer_domain	varchar	Domain name portion of referring url (i.e. amazon.com)
Comscore_url_traffic	url_refer_host	varchar	URL host portion of referring url (i.e. www.amazon.com)
Comscore_url_traffic	url_refer_dir	varchar	URL directory portion of referring url (i.e. /gp/product/)
Comscore_url_traffic	url_refer_page	varchar	URL page portion of referring url (i.e. index.asp)
Comscore_url_traffic	mimetype	varchar	Identifies the mime type of url; derived from content-type reply header.
Comscore_url_traffic	http_rc	int	Standard HTTP reply code (200, 302, 404, etc)
Comscore_url_traffic	keywords	varchar	Meta keywords from the page
Comscore_url_traffic	html_title	varchar	html title from the page
Comscore_url_traffic	pattern_id	int	Comscore Client Focus Dictionary url PageMask ID

Desktop Person Demographics

File	Field	Data Type	Description
Comscore_person_demos	person_id	bigint	Unique identifier for each person
Comscore_person_demos	machine_id	bigint	Unique identifier for each machine
Comscore_person_demos	gender	varchar	Gender of panelist
Comscore_person_demos	age	varchar	Age of panelist
Comscore_person_demos	children_present	varchar	Child present in household
Comscore_person_demos	hh_income	varchar	Household income
Comscore_person_demos	hh_size	varchar	Size of household
Comscore_person_demos	ethnicity_id	varchar	Ethnicity/Language/Occupation of panelist depending on geography
Comscore_person_demos	race_id	varchar	Race/State/Province/HH Role depending on geography
Comscore_person_demos	computer_location	varchar	Home, work, or university
Comscore_person_demos	country	varchar	Country machine is located
Comscore_person_demos	region	varchar	Market or Region where machine is located depending on geography
Comscore_person_demos	time_zone_bias	int	GMT offset * -60
Comscore_person_demos	month_id	int	Unique identifier for month

Desktop Machine Demographics

File	Field	Data Type	Description
Comscore_machine_demos	machine_id	bigint	Unique identifier for each machine
Comscore_machine_demos	country	varchar	Country machine is located
Comscore_machine_demos	region	varchar	Market or Region where machine is located depending on geography
Comscore_machine_demos	time_zone_bias	int	GMT offset * -60
Comscore_machine_demos	computer_location	varchar	Home, work, or university
Comscore_machine_demos	hoh_age	varchar	Head of household age
Comscore_machine_demos	hh_income	varchar(50)	Household income
Comscore_machine_demos	children_present	varchar(25)	Child present in household
Comscore_machine_demos	hh_size	varchar(25)	Size of household
Comscore_machine_demos	month_id	int	Unique identifier for month

Comscore Mobile URL Traffic (timestamp level data)

File Name	Field	Data Type	Description
comscore_mobile_[DEVICE]_url_traffic	machine_id	bigint	Unique Phone ID, similar to person or machine ID
comscore_mobile_[DEVICE]_url_traffic	url_idc	char(22)	Unique event identifier
comscore_mobile_[DEVICE]_url_traffic	ss2k	bigint	Seconds Since 2000
comscore_mobile_[DEVICE]_url_traffic	time_id	int	Comscore date identifier (Unique identifier for days)
comscore_mobile_[DEVICE]_url_traffic	domain_name	varchar(63)	Domain name portion of url (i.e. amazon.com)
comscore_mobile_[DEVICE]_url_traffic	url_host	varchar(122)	URL host portion of url (i.e. www.amazon.com)
comscore_mobile_[DEVICE]_url_traffic	url_dir	varchar(255)	URL directory portion of url (i.e. /gp/product/)
comscore_mobile_[DEVICE]_url_traffic	url_page	varchar	URL page portion of url (i.e. index.asp)
comscore_mobile_[DEVICE]_url_traffic	url_refer_domain	varchar(255)	Domain name portion of referring url (i.e. amazon.com)
comscore_mobile_[DEVICE]_url_traffic	url_refer_host	varchar(255)	URL host portion of referring url (i.e. www.amazon.com)
comscore_mobile_[DEVICE]_url_traffic	url_refer_dir	varchar(255)	URL directory portion of referring url (i.e. /gp/product/)
comscore_mobile_[DEVICE]_url_traffic	url_refer_page	varchar(255)	URL page portion of referring url (i.e. index.asp)
comscore_mobile_[DEVICE]_url_traffic	browser_type	varchar(255)	Numeric ID for the Browser
comscore_mobile_[DEVICE]_url_traffic	http_rc	int	Standard HTTP reply code (200, 302, 404, etc)
comscore_mobile_[DEVICE]_url_traffic	pattern_id	int	Comscore Client Focus Dictionary url PageMask ID
comscore_mobile_[DEVICE]_url_traffic	platform	varchar(63)	Identifies the platform of the device (iPhone, iPad, Android Phone)
comscore_mobile_[DEVICE]_url_traffic	access_method	varchar(63)	Name of the access method (iOS App, iOS Browser, etc.)

Mobile Device Demographics

File Name	Field	Data Type	Description
comscore_mobile_demos	month_id	int	Month Number corresponding to Comscore Time
comscore_mobile_demos	platform	varchar(50)	Identifies the platform of the device (iPhone, iPad, Android)
comscore_mobile_demos	machine_id	bigint	Unique Phone ID, similar to person or machine ID
comscore_mobile_demos	age	int	Age of panelist
comscore_mobile_demos	gender	varchar	Gender of panelist
comscore_mobile_demos	hh_income	varchar	Household income of panelist (US Only)
comscore_mobile_demos	hh_size	varchar	Size of household (US Only)
comscore_mobile_demos	children_present	varchar	Child present in household
comscore_mobile_demos	region	varchar	Market or Region where panelist is located depending on geography

Mobile Day Session (session level, daily granularity)

File Name	Field	Data Type	Description
comscore_mobile_day_session	month_id	int	Comscore date identifier (Unique identifier for months)
comscore_mobile_day_session	session_id	bigint	Unique session identifier
comscore_mobile_day_session	device_id	bigint	Unique Phone ID, similar to person or machine ID
comscore_mobile_day_session	platform	varchar	Identifies the platform of the device (iPhone, iPad, Android Phone)
comscore_mobile_day_session	access_method_name	varchar	Name of the access method (iOS App, iOS Browser, etc.)
comscore_mobile_day_session	time_id	int	Comscore date identifier (Unique identifier for days)
comscore_mobile_day_session	calendar_day	date	Calendar day on which event took place
comscore_mobile_day_session	event_time	timestamp	Time of session start (GMT)
comscore_mobile_day_session	ss2k	int	Comscore event time identifier (event start); Seconds between January 1, 2000 and beginning of session
comscore_mobile_day_session	pages	int	Raw page counts
comscore_mobile_day_session	duration	numeric	Mobile Day
comscore_mobile_day_session	pattern_id	int	Comscore Client Focus Dictionary url PageMask ID

Desktop Day Session

File	Column	Data Type	Description
Comscore_desktop_day_session	machine_id	bigint	Unique identifier for each machine
Comscore_desktop_day_session	person_id	bigint	Unique identifier for each person
Comscore_desktop_day_session	session_id	bigint	Unique session identifier
Comscore_desktop_day_session	time_id	int	Comscore date identifier (unique identifier for days)
Comscore_desktop_day_session	first_ss2k	int	Comscore event time identifier (event start); Seconds between January 1st, 2000 and beginning of session
Comscore_desktop_day_session	pages	numeric	Raw page counts
Comscore_desktop_day_session	duration	numeric	Raw session length in seconds
Comscore_desktop_day_session	pattern_id	int	Comscore Client Focused Dictionary url PageMask ID
Comscore_desktop_day_session	ref_pattern_id	int	Referral Comscore Client Focused Dictionary url PageMask ID

Time Lookup

File Name	Field	Data Type	Description
comscore_time_lookup	time_id	int	comScore date identifier (Unique identifier for days)
comscore_time_lookup	week_num	int	comScore date identifier (Unique identifier for weeks)
comscore_time_lookup	month_num	int	comScore date identifier (Unique identifier for months)
comscore_time_lookup	calendar_day	date	Calendar day associated with comScore time_id

Category Map

File Name	Field	Data Type	Description
comscore_category_map	month_id	int	Comscore date identifier (Unique identifier for months)
comscore_category_map	pattern_id	int	Comscore Client Focus Dictionary url PageMask ID
comscore_category_map	web_id	int	Comscore Client Focus Dictionary entity ID
comscore_category_map	web_name	varchar(255)	Comscore Client Focus Dictionary entity name
comscore_category_map	level_name	varchar(255)	Comscore Client Focus Dictionary level name
comscore_category_map	level_id	int	Comscore Client Focus Dictionary level unique identifier
comscore_category_map	parent_id	int	Comscore Client Focus Dictionary parent ID
comscore_category_map	subcategory	varchar(255)	Comscore Media Metrix category to which entity belongs

comscore_category_map	category	varchar(255)	Parent category of the above category
comscore_category_map	Magazine	int	PatternID qualifying to attribute Magazine
comscore_category_map	Streaming_Video	int	PatternID qualifying to attribute Streaming_Video
comscore_category_map	Blog	int	PatternID qualifying to attribute Blog
comscore_category_map	Streaming_Audio	int	PatternID qualifying to attribute Streaming_Audio
comscore_category_map	Cable_Broadcast_TV	int	PatternID qualifying to attribute Cable Broadcast TV
comscore_category_map	Radio	int	PatternID qualifying to attribute Radio
comscore_category_map	Newspaper	int	PatternID qualifying to attribute Newspaper

Browser Type Lookup – Mobile Only

File Name	Field	Data Type	Description
comscore_browser_type_lookup	browser_type	varchar(255)	Numeric ID for the Browser
comscore_browser_type_lookup	browser_name	varchar(255)	High level browser name
comscore_browser_type_lookup	browser_name_detail	varchar(255)	Browser name with version
