Notes

- This blog from Pornhub tells which states they've blocked:
<https://www.pornhub.com/blog/age-verification-in-the-news>
- *I could not find an exact date for when PH blocked access to Mississippi. However, the linked blog is written on June 30, 2023 and contains a screenshot of a twitter post from Pornhub, which explains that it decided to block access in both Mississippi and Virginia. Since both states have the same effective date, I infer that the block date is also the same, and I found a definite source for the block date in Virginia.
- **Indiana's law was originally supposed to take effect on July 1, 2024, but a District Court Judge issued a preliminary injunction on June 28, 2024, blocking it from taking effect.
 - However, by June 27, 2024, Pornhub had already blocked access in Indiana:
<https://indianaeconomicdigest.net/Content/Default/Major-Indiana-News/Article/Federal-judge-blocks-Indiana-law-requiring-age-verification-for-porn-websites/-3/5308/116803>
 - ACLU Instagram post on June 27th about Pornhub shutting down in the state.
<https://www.instagram.com/reel/C8u6bNXvpDV/?hl=en>
 - This article makes it sound like the ban was still in place during the preliminary injunction. So, even though the law was prevented from going into effect until August 16, 2024, it appears that Pornhub decided to stay blocked in Indiana:

- ***Tennessee's law was initially supposed to go into effect on January 1, 2025, but was issued a temporary injunction. But it was allowed to go into effect on January 14, 2025.
<https://tech.yahoo.com/general/articles/pornhub-block-expands-florida-south-160424698.html>
 - This article mentions that Pornhub was not yet blocked in Tennessee while the law was in limbo.

Notes:

- Will fill in South Carolina-Missouri if we ever add the 2025 data.
- *The Texas timeline for compliance is on the next page.
- **The cybernews article suggests that xHamster is blocked in Alabama, but the Gizmodo article suggests that it is not blocked, but is complying with age verification laws. Similarly, the cybernews article suggests that XNXX does not require age verification, but the VPN Overview article suggests that it is requiring age verification. This article (<https://www.al.com/news/2025/10/alabamas-new-10-sin-tax-on-porn-websites-will-help-pay-for-mental-health-services-sponsor-says.html>) discusses how Alabama passed another “sin tax” law that went into effect September 1, 2025, which states that “Companies will pay 10% of gross receipts for sales, memberships, subscriptions, performances, and other activities based in the state.” The comments from this reddit post (https://www.reddit.com/r/Alabama/comments/1o2g82l/alabamas_new_10_sin_tax_on_porn_websites_will/) suggest that after this sin tax was passed, sites may have had additional pressure to comply with the law or block users in Alabama from accessing the site. The timeline suggests that this is likely not a concern for our sample period: the sites in Alabama are likely following the same pattern of compliance as in other states.
- ***It looks like XNXX and xVideos also require age verification in Oklahoma in the later period. This reddit post (https://www.reddit.com/r/oklahoma/comments/1gal81r/oklahoma_to_require_id_to_access_porn/) contains a comment from someone 8 months ago about XNXX now requiring age verification, and the linked cyber news article (<https://cybernews.com/how-to-use-vpn/how-to-watch-porn-in-florida/>) mentions that xVideos now requires age verification. From the dates on these posts, it looks like we will not have to worry about this change in the compliance for our sample period.
