Purpose: This document provides details for the coding of the state law timing and sources for these dates as recorded in statelaws_dates.csv.

Variables:

- state: two
- day_passed: calendar day law was passed by state legislature/signed by governor
- day_effective: actual effective date for law, accounting for preliminary injunctions
- original_day_effective: original effective date at time of passing the law

Sources for Dates

Below is a table of sources for day_passed and day_effective. For day_passed, I source from Legiscan when available. For bills available on Legiscan, I record the date passed. If the bill is unavailable on Legiscan, I first look for information about the bill on the state legislature's website. In this case, I record the date the law was signed by the governor. For the law's effective dates, I use resources provided from the Free Speech Coalition.
